EXPERIENCE

RoR Engineer (intern), *Playpass*
November 2014 – December 2014 (1 months)

Worked closely with team members to learn code base, fix bugs, glean a better understanding of internal Git flow, respond to real customer driven and/or production environment issues, etc.

Web Developer, *Dev Bootcamp SF*
May 2014 – September 2014 (5 months)

Completed an immersive 19 week full stack development course which included more than 1000+ hours of programming with a focus on preparation for real industry experience.

Studied and cultivated a strong understanding of a variety of technologies and languages from Ruby to Javascript, as well as industry best practices like Object Oriented design and MVC.

Projects include:

- **First-and-Learn** (Rails/JS App) *5 person team*
  - Full stack web application using RoR backend and Vanilla Javascript frontend.
  - Web application that uses crowd sourcing to generate, organize and edit user defined learning path utilizing internet resources
  - http://first-and-learn.herokuapp.com/
- **BYO (Bring Your Own)** (Rails App) *Individual project*
  - Full stack web application using RoR and React.
  - Web application for organizing & pooling resources for social gatherings (camping, potlucks etc…).
  - MVP - in progress

Senior Paralegal Cotchett, Pitre & McCarthy
September 2006 – July 2014, Burlingame, CA

Worked as a Senior Paralegal and Litigation Coordinator for a well-known and respected law firm for almost 8 years.

Managed various aspects of large scale, complex cases primarily for multi-million dollar Antitrust/Class action cases alongside lead counsel and other senior paralegals.
